

Bench or Counter Dusters

Bench or counter duster brushes are manufactured with polypropylene brush blocks, except 550000 which has a hardwood block.

POLYPROPYLENE

Catalog #	Description
550080	Our most popular counter duster, filled with black polypropylene for fine dust and heavy dirt.
550021	Blue polypropylene for segregated cleaning zones.
550081	White polypropylene for segregated cleaning zones.
550082	Red polypropylene for segregated cleaning zones.
550083	Green polypropylene for segregated cleaning zones.
550084	Yellow polypropylene for segregated cleaning zones.

HORSEHAIR

Catalog #	Description
550030	100% horsehair. A craftsman's favorite for bench cleaning. Also preferred for scratchless dusting of polished surfaces.
550000	100% horsehair with wood brush block.

BLACK TAMPICO

Catalog #	Description
550060	Staple set with black tampico for shop use. Easily handles sawdust, wood chips, glass particles. Also heat resistant.

UNION FIBER

Catalog #	Description
550070	The stiff union fiber of this bench brush sweeps up heavy debris under wet or dry conditions.

FLAGGED TIP FIBER

Catalog #	Description
550090	Gray flagged tip fiber for gently sweeping fine dust and light dirt. A great all purpose sweeping tool.

LONG HANDLE DUSTING (RADIATOR) BRUSH

A long, narrow hardwood handle, filled with one row of tampico, has a flared tip to easily clean small crevices.

Catalog #	Fill Material	Trim	Rows	Handle (L x W)
578610	Tampico	2"	1 x 30	24" x 3/8"
