

Versatile Wood/Steel Handle

*Innovative Products that **Clean Better and Last Longer™***

This Wood/Steel Handle was designed and built with you, the user in mind. It is engineered to last as it combines a hard wood upper handle area with a powder coated steel lower handle area that is built from hollow core steel for strength, stability, and flexibility. With steel casing double crimped to wood, this multi purpose Wood/Steel Handle is **Virtually Indestructible**. The MDB Wood/Steel handle can be used with any Speed Sweep®, Seat Sweep®, or Speed Squeegee® head.
