

Speed Sweep®

No other brush comes close to matching the unique features of the Speed Sweep® system... a steel back is placed over the brush block and crimped permanently onto the block. Steel rivets are fastened through the entire block to secure the adjustable steel socket.

FEATURES

- Steel back
- Narrow brush block-strength of the steel back allows for the use of a thinner, narrower brush block
- No large holes drilled in center of block
- Adjustable steel socket and nut
- Steel stud in handle will not strip or break when tightened

BENEFITS

- Block will not crack or split
- Lightweight and easier to use
- Speed Sweep® is strongest in the center of the brush where ordinary brushes are weakest
- An ergonomic floor brush adjustable to suit the users height
- Handle can be frequently reversed to keep bristles in shape for longest wear

Speed Sweep® fine sweeping for smooth surfaces

FINE DUTY BLACK POLYPROPYLENE

Fine polypropylene sweeps light dust and dirt, gives extremely long wear. Careful blend of straight and crimped polypropylene creates a superior brush. 3" bristle trim.
